Get disOriented!

Student Power Action Community (SPAC) is a coalition of student groups working for progressive change on and off campus.

This guide is not going to tell you where the Starbucks is or to open a Chevy Chase bank account. The disOrientation guide will introduce you to a bunch of rad student groups and show you another side of the University. If you like it, come party with SPAC and get involved!

Student Power is the idea that since students are the people affected by University decisions, students should be the ones making them.

What We've Done

What's the best way to learn about recent action on campus? Ask the students themselves of course! Here are a couple of students' personal stories about their experiences working for change on and off campus in the last few years. And don't be shy to ask about them at Radical Rush events!

United Students Against Sweatshops

"My favorite win so far has been the campaign Feminism Without Borders, in conjunction with the international organization United Students Against Sweatshops, waged against RUSSELL ATHLETIC. Russell Athletic, those scumfucks, shut down Jerzees de Honduras, a factory attempting to unionize that sews university apparel for hundreds of universities, including our beloved Terp Gear.

Pissed off, USAS chapters gave our university administrators hell and unleashed a wrath on Russell unbeknownst to an apparel company since Nike was smeared in the 90s. Victorious, our solidarity campaign reopened the factory and Russell guaranteed to acknowledge the right to unionize in all Honduran Fruit of the Loom (which owns Russell Athletic) factories. We've messed with vile neoliberalism and we're out to topple the world." ~ Josef Parker

Wooded Hillock

"The Wooded Hillock is awesome. Camping, tree houses, short trails, and 20 acres of forest on campus. Thousands of students visit the Hillock with their courses to study soils, ecosystems, succession ecology, etc. Many more visit the Hillock to escape or to hang out with friends. It's all "unofficial," though. Admin still thinks of the patch of woods as a prime development opportunity. We could build dorms there, they say. Or parking lots, as they did in 2001. Last year, too: Admin had plans to bulldoze nearly 10 acres of the forest and were stopped only by a coordinated effort of scores of students, faculty, and Prince George's county residents who organized and educated folks on and off campus about the importance of the Wooded Hillock and persuaded Admin to choose other sites." ~ Bob Hayes

Students
Taking
Action to
Reclaim our
Education

“Last fall our University jolted me into realizing the importance of diversity to my education when it decided to betray its values. I thought, “No. Where are your priorities? Don’t cut diversity.” I felt the dynamic nature of my education and campus community take a sudden turn without warning, and what’s worse, without student input. I marched with hundreds of UMD students up the steps of the administration building, demanding that Dr. Black’s position be restored. We formed a coalition under the name STARE, Students Taking Action to Reclaim our Education. Because this is not just any University, this is OUR University.” ~ Kim Sterin

“In the Spring of my freshman year, as a member of SdS, I combated the university’s secretive decision to renew Barnes and Noble’s contract with the University Book Center. I helped create a petition for student input in the book center’s contracting process with an ultimate goal of establishing a not-for-profit school bookstore. Through on-campus outreach and online networking, we raised tons of student support, but the university still wouldn’t budge. The administration was alarmed at the students’ disappointment with the UBC, though, and granted all students a 5% price reduction in textbooks. Getting involved in the activist community so early in my college career was really empowering and fun too!” ~Richard “Tricky Dick” Baker

I heard this place was cool...

A list of places you should know about around where you live!

College Park (or really close to it)

Berwyn Café – A neighborhood café that serves yummy and healthy food. Plus, they host an open mic from time to time. It's also really close to **Smile Herb Shop** which is a great place to pick up supplements and remedies. [5010 Berwyn Rd, College Park, MD, www.berwyncafe.net]

Value Village – Exactly what it sounds like. A store that's so large it's like a village and prices that can only be valued. Come here all the time. Love it, wear it, flaunt it. [2277 University Blvd E Hyattsville, MD, www.valuevillage.com]

Maryland Food Coop – This is the University of Maryland's own collective grocery store where you can get delicious, inexpensive, healthy-as-fuck-for-you-i-almost-don't-want-it food while supporting alternative business models. The best part is that you can volunteer to get food credit, so if you have some spare time and not a lot of cash, that works out well. Be warned, they don't take plastic. [B0203 Stamp Student Union, UMD, www.marylandfoodcollective.org]

Mt. Rainier Bike Coop – This place fixes bikes for free/cheap, and has a program where you can earn parts to make your own bike by volunteering your time building bikes for others. They're south of campus, just off of Rt. 1 [3601 Bunker Hill Rd Mt Rainier, MD, <http://www.mrbikecoop.com>]

DC Glassworks – Ever marveled at some colorful crazy glass art? Ever wanted to make some yourself? Baltimore

The Book Thing – The Book Thing is in Baltimore, but by god it is worth the journey. Their mission is to “Put unwanted books into the hands of those who want them,” which means that on any given weekend, you can go pick up free books. As many as you want. Or if you want to get rid of books, you can drop them off here. It really doesn't get better than free books. And while you're in Baltimore, go check out **Red Emma's** a not-so-free but totally rad bookstore and café at 800 St. Paul St, and support collective businesses! [3001 Vineyard Lane, Baltimore, MD, www.bookthing.org]

DC

Whitman Walker – Ostensibly queer/trans/women friendly community clinic; “Provides culturally sensitive, compassionate health care and supportive services to gay men, lesbians, bisexuals, and transgender individuals”. For example, you can get gynecological exams for free, they offer hormones, and it's also good for STI testing. [17011 14th St, NW (14th & R St), www.wwc.org]

Brickskeller – It's a bar in Dupont that has the most different beers of any bar in the US. It's also staffed by a lot of activists (most are alumni of United Students Against Sweatshops, which is the national organization that Feminism Without Borders is affiliated with!). [810 7th St NW, www.lovethebeer.com/brickskeller]

Soul Vegetarian – Absolutely effing amazing vegan soul food – do yourself a favor and get mac and cheese, greens, and yams. It's right by the Shaw/Howard metro stop and more than worth the trip. [2606 Georgia Ave NW]

Feminists for Sexual Health

Who Are We?

Feminists for Sexual Health started in 2006 as Terps for Choice, Maryland's reproductive freedom advocacy group. In 2009, we increased our scope to encompass a wider range of sexual health and gender equity issues, including reproductive justice, sexual assault, domestic violence, consent, harassment, and sexism. We are an event-based group that holds twice monthly programs.

What Are Our Goals?

We are working on establishing a women's center on campus. This center would advocate for issues of gender equity, create a safe space for women, and enrich the campus with a multitude of gender/women's studies and feminist resources. We also strive to increase campus sexual health literacy, expand knowledge about sexual health resources, and empower individuals by respecting their choices and bodily autonomy.

What We've Accomplished:

- Screened The Coat Hanger Project, a documentary film about abortion and the current state of the reproductive justice/pro-choice movement.
- Had a domestic violence lecture with Love is Not Enough, a non-profit that strives to end domestic violence through education and advocacy.
- Held Maryland's first Take Back the Night since 2006. Take Back the Night is an international and annual event that addresses the realities of sexual assault, rape, and interpersonal violence.
- Participated in a lecture and investigation about crisis pregnancy centers (CPC). CPCs are non-medical facilities run by religious, conservative organizations that use deceptive advertising to misinform women about their reproductive health options.

Upcoming Events:

September: consent is Sexy workshop, WACDTF clinic escort training
October: Street harassment workshop with Hollaback DC!

We meet Tuesdays at 7pm in 0118 Armory

DON'T GET BUSTED! KNOW YOUR RIGHTS!

If you're in your dorm,
and someone knocks...

1 Be polite.

If it's an R.A.

If it's the police...

2 Step out into the hall and tell the R.A. your name.

2 You don't have to answer the door. Unlike RAs, there is no punishment for not answering.

3 You don't have to answer anything: whatever you say can and will be used against you.

3 You don't have to answer anything: Police are trained to get info out of you, even by lying. Not the time to plead your case.

4 You don't have to allow a search: RAs may only enter without consent at predetermined times.

4 Do not consent to a search. Police may only enter with consent, exigent circumstances, or a warrant. If you feel your rights were violated, contact a lawyer ASAP.

Strong people don't need strong leaders.

We want a world of small 'd' democracy where people most affected by decisions take the power to make those decisions themselves. We want the freedom to live and love, not just to buy. We want sustainable production based on human need, not private profit. We want dignity and human rights, not war, prisons, and poverty.

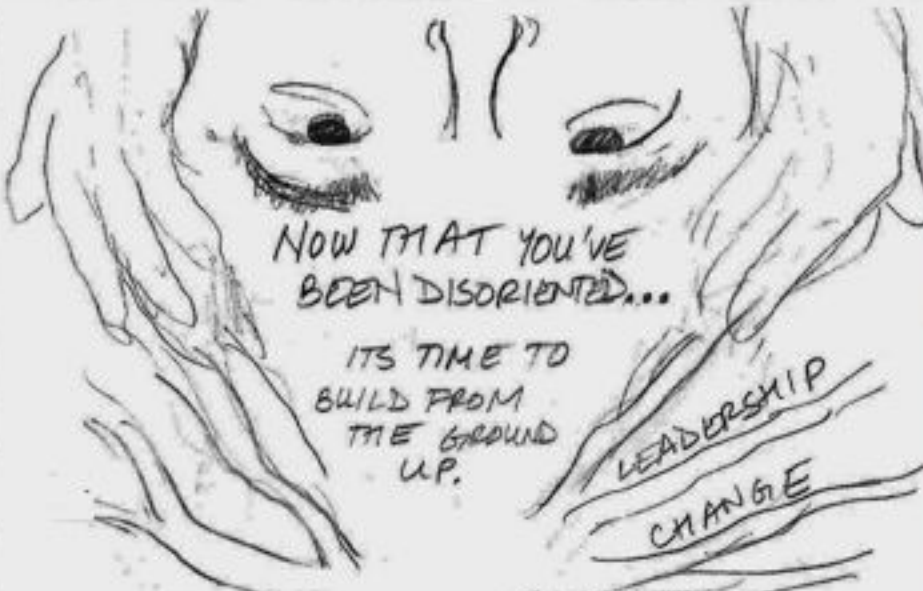

In College Park, we want our school to be more than a job training program, though we are very concerned about paying rent once we graduate. We want our school to be a place where we learn together about the problems of the world, trace them to their deepest roots, and work for radical solutions.

WHAT YOU NEED TO KNOW ABOUT SEXUAL ASSAULT ON CAMPUS

- It happens. It's difficult to know statistics on sexual assault on our campus because it's rarely reported, but it is a widespread problem.
- While some stranger rapes (the kind you are warned about happening in a dark alley) occur, the vast majority of sexual assaults on campus are date rapes committed by students.
- Most of sexual assaults at UMD occur when the rapist and/or victim are under the influence of alcohol.

What can you do?

Change campus culture: Rape will continue to be a problem on campus as long as rapists are tolerated in campus culture. The idea that rape is just "bad sex" must be challenged; be sure you communicate firmly to your community that rape is a violent crime and must be condemned.

Never blame the victim/survivor: Wearing certain clothes or being out at night is not consenting to sex. The responsibility for stopping rape is on the perpetrator and the campus community.

Know how to help: Be sure you have emergency phone numbers saved in your phone so you can call for help. Be familiar with campus resources for survivors so you direct a friend there and provide support

MACTIVISM?

"MACTIVISM" CAN MEAN USING ACTIVISM TO GET LAID, LIKE A TOTAL CREEP.

OR IT CAN REFER TO THE FACT THAT ACTIVISM IS THE SEXIEST EVER.

IN MY OLD CREW, WE USED TO SAY, "YOU AIN'T GOT GAME IF YOU AIN'T GOT FLIERS."

BUT I DO FEEL LIKE A LOT OF CAMPAIGNS ARE PLAGUED BY MAJOR MACTIVIST DRAMA.
